PROFILE

Senior Frontend Developer with 15+ years of experience building web applications, e-commerce platforms and digital products. My main stack is React and TypeScript, with experience in frontend architecture, API integrations and production delivery.

I also have a UX/UI background, which helps me work closely with design teams and translate product requirements into solid frontend implementations.

CORE STACK

React · TypeScript · Next.js · React Native · REST APIs · Tailwind CSS · Node.js · Strapi · AWS

EXPERIENCE

Gerundio

2022–Present

Frontend Tech Lead / Development Lead

- Lead frontend development across web applications, e-commerce platforms and mobile products.
- Define frontend architecture, development standards and implementation approaches.
- Work with designers, backend developers and stakeholders from discovery through launch.
- Review technical requirements, estimate development effort and support developers through implementation and code reviews.

Holicstudio

2011–Present

Independent Senior Frontend Developer / Consultant · Part-time

- Delivered 200+ digital projects across e-commerce, SaaS, healthcare and education.
- Build frontend solutions using React, Shopify and WordPress based on product requirements.
- Handle technical discovery, estimation, architecture and implementation directly with clients.
- Integrate APIs, CMS platforms, payment services, marketing tools and cloud services.

Diagnostikare

2020–2022

UX/UI & Frontend Lead

- Led UX/UI and frontend development for a healthcare digital product.
- Worked across research, product design, frontend implementation and iteration.
- Built and maintained UI foundations used across patient and clinical workflows.
- Collaborated with product and development teams to turn product requirements into usable digital experiences.

SELECTED PROJECTS

PACO Teacher

React · Strapi · AWS Amplify

Educational SaaS platform for teachers.

- Led frontend architecture and implementation, including authentication flows, CMS integration and application workflows.
- Worked with React, Strapi and AWS Amplify to connect frontend, content and authentication services.

SOMA+

React Native · Expo

Mobile application built with React Native and Expo.

- Worked across UX/UI, frontend implementation and production delivery.
- Implemented application flows, navigation and integrations.
- Participated in the App Store and Google Play release process.

Shopify E-commerce

Shopify Plus · Liquid · Custom Integrations

- Developed and customized Shopify stores using Liquid, custom sections and third-party integrations.
- Worked with Shopify Plus features, checkout extensibility, Shopify Markets, Klaviyo and e-commerce integrations.
